# BRI Whitelisting Tips

## GENERAL

All emails from Benefit Resource are sent with the **benefitresource.com** domain. Typically, registering the **benefitresource.com** domain within your server as an approved sender will ensure that employees consistently receive communications from Benefit Resource.

## ADVANCED

Benefit Resource does leverage third-party providers when sending bulk communications. If you find that employees are not receiving some or all communications from benefitresource.com, additional whitelisting of IP addresses from the third-party tools can assist with deliverability.

### CLIENT COMMUNICATIONS

Client-facing emails are sent through a system called Pardot. Here is a list of IP addresses used for Pardot:

| | | |
|---|---|---|
| 52.202.69.186 | 35.162.236.194 | 34.208.83.105 |
| 52.21.178.134 | 34.213.32.13 | 35.164.251.63 |
| 35.174.150.168 | 35.164.254.110 | 35.164.165.226 |
| 35.174.151.106 | 52.42.59.7 | 34.218.141.17 |
| 35.174.78.146 | 18.232.248.67 | 34.236.235.55 |
| 18.232.28.189 | 35.174.85.220 | 34.231.125.55 |
| 18.236.48.198 | 52.21.28.50 | 52.20.28.237 |
| 35.160.68.143 | 35.172.247.215 | 34.193.125.2 |

### EMPLOYEE COMMUNICATIONS

Employee communications are sent through MailChimp. Here is a list of IP addresses used by MailChimp:

| | | |
|---|---|---|
| 205.201.128.0/20 | 198.2.128.0/18 | 148.105.0.0/16 |
