

## General Guidelines

There are two ways to move funds from an existing HSA or Medical Savings Account into a new HSA:

### 1. Rollover

A rollover is a cash distribution and redeposit with another custodian bank within 60 days. Either the account holder receives the funds and redeposits in a new account or writes a check on an old account to a new custodian. The account holder is limited to using this approach once every 12 months.

### 2. Trustee-to-Trustee Transfer

In a trustee-to-trustee transfer the current custodian moves funds to the new custodian directly. There is no limit under the tax laws on the number of times this can occur.

Comparison of rollover and trustee-to-trustee transfer into a Health Savings Account:

	Rollover	Trustee-to-Trustee
<b>Frequency</b>	One rollover per 12 month time period, per HSA. Must be redeposited to your new HSA within 60 days after the day the distribution is made. If you fail to redeposit within this 60-day period, your distribution will be taxable to you and subject to additional penalty taxes (unless an exception applies).	Unlimited
<b>Tax Reporting</b>	We are required to report the contribution on a Form 5498-SA.	None required
<b>Fees</b>	We do not charge any fees with a rollover of funds into the HSA.  Other custodians may charge fees associated with account closure and/or funds rollover.	We do not charge any fees with a trustee-to-trustee transfer of funds into the HSA.  Other custodians may charge fees associated with account closure and/or a trustee-to-trustee transfer.
