

Spend Commuter Benefit Funds at OMNY Turnstiles in NYC

CONNECT YOUR BENIVERSAL® OR ETRAC® PREPAID MASTERCARD® TO YOUR PREFERRED DIGITAL WALLET

OMNY is the new contactless fare payment system of the MTA. To use OMNY, users don't have to sign up or download an app; they simply tap and go on the OMNY reader. By adding their Beniversal or eTRAC Card to Apple Pay®, Google Pay®, or Samsung Pay®, users can pay for their subway or bus fare using their Commuter Benefit funds.

- 1 **Make sure the mobile phone number associated with the digital wallet is on file with BRI.** Users should login to BRIWEB or BRIMOBILE and add their mobile number to the Profile section (if needed).
- 2 **Add your card to your preferred digital wallet.** Digital wallets supported by BRI include Apple Pay, Google Pay, and Samsung Pay (instructions are available in the FAQ section at [BenefitResource.com](https://www.benefitresource.com)).
- 3 **Review available digital wallet settings.** Some digital wallets have the option to set a preferred card for transit expenses.

ENJOY THE CONVENIENCE OF CONTACTLESS PAYMENT IN EVERY BOROUGH

To pay your fare at subway turnstiles, AutoGates, and onboard buses (including Select Bus Service buses), simply tap your phone, smartwatch, or OMNY card on the reader. The screen will instantly confirm if the tap was successful, sending users on their way quickly and easily. Be sure to use the same card or device for both legs of the trip to get a free transfer.

THE ULTIMATE FLEXIBILITY

Users can also use their Beniversal or eTrac card to add funds to an OMNY card. Cards must be purchased using alternate funds from an [OMNY retail location](#).
