EASY, CUSTOMIZABLE PLAN DESIGN

STEP 1. SELECT THE EXPENSE CATEGORIES

Employers can select from a variety of predefined expense categories or work with their assigned representative to design a program that best meets company needs.

STEP 2. DETERMINE THE RULES

- **Will funds roll over?** Opt to allow employees to keep (roll over) unused funds at the end of the year, or not, depending on company budget.
- **How much (and how frequently) will funds be provided?** Control how much and how frequently funds are distributed.
- **Who can enroll?** Set parameters that must be met in order to participate in the benefit.

STEP 3. DECIDE HOW FUNDS CAN BE USED

Option 1: Carded program:

The Beniversal® Prepaid Mastercard® is used to pay for eligible plan expenses. Sophisticated auto-approval logic minimizes the need for paperwork and receipts. Participants can connect their cards to digital wallets such as Apple Pay®, Google Pay®, and Samsung Pay® to enable contactless payments. Claims for reimbursement can be submitted if a different payment source is used.

Option 2: Reimbursement only: Participants pay for expenses using their preferred payment method. Then, they reimburse themselves through BRIWEB, BRIMOBILE, or by mailing in a claim form with required documentation.
