Eligible Expense Quick Reference

This list is intended to be used as a quick reference of potentially eligible medical expenses, and does not guarantee that an expense is eligible. It is not intended to be an all-encompassing list and may be updated from time to time. Eligible expenses are governed by Section 213(d) of the Internal Revenue Code. In addition to the list below, there are over 150 additional items or expense types that are considered potentially eligible and may require a prescription or a letter of medical necessity.

Once your account is open, you will have access to a detailed eligible expense look up table. Simply log in at BenefitResource.com and select Eligible Health Care Expense Table under the Health Savings Plan tab.
